## EXPERIENCE

### THOR HF. / SOFTWARE DEVELOPER

MAY 2021 – PRESENT, REYKJAVÍK, ICELAND

Developed and deployed backend solutions connecting a legacy accounting system with a new invoicing system and shipping vendor APIs. These solutions have been live for over five months successfully handling dozens of sales transactions each day. Thor hf. is a national distributor of power tools and agricultural equipment. Deployment to other businesses using the same accounting system has been requested.

### THOR HF. / SALES ASSOCIATE

SUMMER JOBS 2016 – 2020, REYKJAVÍK, ICELAND

Sales associate selling power tools (Makita) to professional tradespeople. Other tasks include inventory and delivery.

## EDUCATION

### UNIVERSITY OF ICELAND / B.SC MECHANICAL ENGINEERING

Undergraduate program in Mechanical Engineering, with electives focused on computer science, including: database theory, numerical analysis (python), machine learning and web programming (spring semester).

## COMMUNITY

Sept 2021 - present: Serving as peer support for immigrant high school students. Helping with math, science, and social activities.

2015 - 2019: Routinely served as referee for youth soccer

## LEADERSHIP

2020: TA in Computer Science 1

2021-2022: Sprettur mentor program
